connecting know-how

convoy with four pushed lighters: 7,000 net tons

175 railway wagons at 40 net tons each

280 trucks at 25 net tons each

# No traffic jam, low-emissions, energy efficient

## REWWay raises awareness on inland waterway transport

Cooperation boosts potential. Through the provision of customized educational- and service offers the Logistikum Steyr and viadonau aim at promoting logistics in inland waterways in national and international research and for educational facilities. Our common goal is to raise the acceptance of the Danube as an efficient mode of transportation. With a wide variety of offers available free of charge on our REWWay-information platform, we intend to create the optimal foundation to achieve this goal by providing:

- › high quality and up-to-date teaching material of all kinds (PowerPoint slides, scripts, short videos, exercises with key, case studies, serious games, ...)
- › user-friendly (easy to use, target group oriented) approach
- › individually adaptable, customized and easy to update (Creative Common Licenses, no copyright) interactive learning
- › internationally usable (German and English version, adaptable to country-specifics) contents
- › (inter) national networking between educational institutions, the business and research sectors
- › organisation and coordination of excursions, guest lectures and joint project initiatives

### Demonstrate transport alternatives and its usage

We generate sustainable knowledge on infrastructure and logistics framework conditions for waterborne transport in the Danube Region through network activities between educational institutions, the business and research sector.

user-friendly.  
international.  
free of charge.

## Our services at a glance – [www.rewway.at](http://www.rewway.at)

### Teaching Materials

Choose from a variety of different teaching materials. Try one of our ready-to-use study packs consisting of PowerPoint slides, a reader, as well as short videos with fitting exercise (with solutions\*). You prefer to create your lessons individually? You are free to adapt our PowerPoint slides (structured into relevant topics) and combine them at your fancy with one of our different exercises or videos.

### Individual Learning Package

You would like to have a set of slides or a whole learning package individually customized to meet your own learning requirements? We would be pleased to prepare learning resources tailored to your needs. How does it work? Just fill out the form and send it to [rewway@fh-steyr.at](mailto:rewway@fh-steyr.at). We will try to process your request as fast as possible. This service is of course free of charge.

### Book a Guest Lecture

To add variety to your everyday study, teaching or working life, we have collected a wide range on exciting guest lectures on different topics related to inland navigation. You can contact the different persons in charge and set up an appointment, individually customized to your special learning requirements.

### Book Excursion

You wish to get practical insights into the processes of important stakeholders from the industry and to conclude your theoretical knowledge with information from the real world? Then do not hesitate and use the opportunity to book one of our interesting excursions to different ports, logistics service providers' facilities or meet relevant stakeholders.

Our variety of adaptable offers – all free of charge – on the topic of inland waterway transport has caught your attention? We hope you will enjoy browsing through our platform. We will be pleased to answer any additional questions you may have. Contact us at: [rewway@fh-steyr.at](mailto:rewway@fh-steyr.at)
